Roof on church and on two steeples should be green, like asbestos shingles often used on residences. Roofs on colored card has too much shade of blue. Small dark steeple is copper colored all the way from roof of church. Show cross up plain on all steeples in gilt color. Church is made of red brick with trimmings in white. Red brick should show up in steeple from roof of church up, as you will see on photographs of church. Colored card shows too much white on steeple. This card was not ordered by me, and was made by some one from a drawing before the church was less than half finished. Foliage, Trees and grass should be green, natural colors.

Title on card, The New Church, Holy Hill, Wis
